# Greeting Words

Dear Colleagues,

It is our great pleasure to invite you to the CMC 2022.

In 2022 experience with us the premiere of the one-day online update, which now takes place every two years between the traditional meetings in Berlin. We have „distilled“ – as the subheading says – the crucial aspects of women’s cancer management.

This year our clinical and scientific update covers the highlights in breast cancer, ovarian and endometrial cancer. We have prepared an exclusive agenda with presidential lectures, state of the art sessions, pro/con debates, educationals, and more ... Leading experts from all over the world will present to you a specific program with high impact for your clinical and scientific work.

After the phenomenal success of the 2021 meeting with more than 2,400 participants from 87 countries and the great feedback, we are again looking forward to a global dialogue. The live stream from our famous Berlin TV studio will be available free of charge to give access to all our colleagues worldwide because sharing experience and knowledge is the strong philosophy of the CMC.

Please join the discussion: Send us your questions and comments – and make this unique Women’s Cancer Conference a real international gathering!

We would be delighted to welcome you.

Sincerely yours,

Prof. Dr. Jalid Sehouli and Prof. Dr. Jens-Uwe Blohmer  
Conference Chairs and Scientific Board
